

ANGIOPLASTY DISCHARGE INFORMATION

You have completed your angioplasty procedure at the Rouge Valley Health System, Centenary site.

You are now ready to return home and will be provided with instructions as to the care of your angioplasty puncture site, follow-up appointments with your family doctor and cardiologist, information regarding the medication Plavix (clopidogrel) and contact information if you should have any questions or concerns.

Make your telephone call today to the Family doctor and Cardiologist.

Please make an appointment to see your family doctor within 1 to 2 weeks.

Please book an appointment to see your cardiologist within for 4 to 6 weeks after your angioplasty.

You may attend a Cardiac Rehabilitation program in your area in approximately 4-6 weeks. If you have any questions about this program, please consult with your Cardiologist or call Cardiac Rehab directly at 416-281-7400 ext 4.

If you have any questions or concerns in the recovery period, please call the Angioplasty Coordinator Mira Finley at 416-284-8131 x 5139.

Thank-you.
